Summary

I am a diligent worker that can work at a fast pace unsupervised. I have experience working in large warehouses and in harsh conditions. I can solve and think problems threw to get results, and do not mind helping other coworkers who may need help. I am an initiative-taking, quick learning, and experienced individual ready to make my next job the best one yet. Currently going to school for Full Stack Development, and after i finish i want to get a certification in CyberSecurity.
